Rapoo x1800 manual

I'm not robot!

Frequently Asked Questions Frequently Asked Questions The latest available product driver is available in the Downloads section on the respective product page. Simply search by model name and download the driver from its product page, or visit our Support pages. The Quick Start Guide is available in the Downloads section on the respective product page. Simply search by model name and download the user manual from its product page, or visit our Support pages. Rapoo offers a warranty to the original purchaser from an authorized retailer. Your Rapoo product is covered against manufacturing defects under the terms and conditions of this warranty for a period of 2 years from the date of the original purchase if purchased from an official retailer. The serial number can be generally found on the bottom side of every product. 1. Move other working wireless devices away from the receiver and mouse. 2. Clean the sensor on the bottom of the mouse with a dry cloth. 3. Try using the mouse on a different surface. 1. Please use the mouse on a mouse pad. 2. Try the mouse on a white paper to check if the special surface you use causes this problem. Rapoo products have a power-saving function to maximize battery life. You do not have to turn the mouse/ keyboard off every time you stop using it. When the product is not moving or there is no signal from the USB receiver, it will automatically turn sleep-mode on to save battery power. When you complete work with the product for the day, we do recommend to use the On/Off power button to optimize the battery life. Unplug the USB receiver from the laptop/ PC. After the USB receiver is replugged, within 30 seconds, turn off the mouse and then turn it on with the left key pressed. 1. Move other active wireless devices away from the device and receiver. 2. The PC can not respond immediately because the CPU is under full load. 3. Change battery if the low battery indicator is blinking. 1. Make sure the device is turned on. 2. Make sure the receiver is plugged into the PC’s USB port. 3. The PC can not recognize the receiver, please re-plug the receiver. 4. Check if the battery is installed correctly. 5. Low battery, please change the battery. 6. Move other working wireless devices away from the receiver and device. 7. Please keep away from walls or big objects, because this may reduce the range. 8. If the problem has not been solved, please download the pairing software from www.rapoo-eu.com, then repair the connection. Because all our products are in the accessories category, we do not have service centers to repair products. A defective product should be replaced by your point of purchase during the warranty period. We offer a ‘return to the retailer’ warranty on our products. In case of a defect, please return the product to your retailer with a clear description of the problem, proof of purchase and all accessories. During the warranty period you will receive a replacement product from the retailer if available. 1. Take out the receiver from the product. 2. Place the receiver into a PC or laptop USB port. After you unplug and replug the USB receiver, within 30 seconds, turn off the mouse and then turn it on with the left key pressed. It is not possible to provide a replacement receiver for this product. This is because during production the product and the Nano USB receiver (dongle) are assigned a unique code, so the product can only communicate with the bundled original receiver. This production process is also performed for security reasons. The USB receiver is stored inside the battery compartment of the mouse. The special receiver storage compartment is located there so you can always store the dongle safely when not in use to prevent damage or loss. 1. Use a mousepad or a piece of paper to check if the surface may be the reason. 2. Try using the mouse on a different surface. 3. Clean the sensor on the bottom of the mouse with a dry cloth. 1. Move other active wireless devices away from the mouse and the USB receiver. 2. The PC can not respond immediately because the CPU is under full load. 3. Try changing the battery. 1. Make sure the device is turned on. 2. Make sure the USB receiver is plugged into the PC/ laptop’s USB port. 3. If the PC/ laptop cannot initially recognize the USB receiver, please replug the receiver. 4. Check if the battery is installed correctly. 5. In case of a low battery, please try changing the battery. 6. Move other working wireless devices away from the mouse and the USB receiver. 7. Please keep away from walls or big objects because this may reduce the range. We offer a ‘return to the retailer’ warranty on our products. In case of a defect, please return the product to your retailer with a clear description of the problem, proof of purchase, and all accessories. During the warranty period, you will receive a replacement product from the retailer if available. Contact us and fill out the form with as much information as possible. One of our support staff will help you as soon as possible. Enjoy carefree wireless. The proven advanced 2.4 GHz wireless standard offers you a range of up to 10m and 360° coverage. Enjoy total control with the 1000 DPI invisible tracking engine, it offers you smooth and accurate mouse-pointer control. So small and unobtrusive, you can plug it into a USB-port and forget about it. No more worries about lost receivers. Thanks to Rapoo’s energy-saving technologies, combined with the on/off switch, you can use this set without replacing batteries for up to 12 months.
